# A New Dimension in Window Design

*Innovative design and quality engineering come together to deliver impenetrable security, modern styling and increased functionality with Safetyline Jalousie's unique glass louvre windows.*

Featuring:

## **Extra wide louvres up to 1.4 metres**

The widest louvre window option available

## **Inbuilt security plus optional stainless steel rod**

Providing peace of mind when windows are open on hot summer nights

## **Weatherproof seals**

Maximising the energy efficiency of air conditioners

## **Complete floor to ceiling capabilities**

Providing endless design possibilities

## **Internal insect screens**

Keep insects out and a fresh breeze flowing

## **Sturdy operating mechanism**

Withstanding the roughest treatment

*Safetyline Jalousie louvre windows are ideal for both domestic and commercial renovations and installations and suit both contemporary and traditional buildings.*
